

Building on the Promise of Tomorrow

**Building on the Promise of Tomorrow
Standing on your grace for us today
For your love has bid us come and follow
Precious Lord: light the path, lead the way**

**We are your people, your family, your own
By water and Spirit begun
Lead us to love with the love that you have shown
Bind us together as one**

**Open our eyes to the harvest, ripe and full
Darkness in need of your light
Send us to shine out to every darkened soul
Send us to waken the night!**

**Feed us and lead us that by your grace we grow
Give us a heart that is true
Deepen our faith, and your will teach us to know
Build up our lives in you**

**All that we have, all we are, and hope to be
All this we offer to you
Make us your body, your hands, your voice, your feet
Willing your service to do**

**O Lord, we long to be where your praise is heard
Come to us now in this place
Here 'round your table, and spoken in your word
Blessing shines forth from your face**
